Standard fees exclude sidewalk, curb and gutter restoration. Service connections that do not meet the noted criteria will be quoted on a fixed cost basis.
3. Water, sanitary & storm sewer service connections located on an arterial road will be charged the Arterial Road Service Connection fee.
4. The depth of the excavation must be no greater than 2.1 metres and the main to be tied in must be closer than 6.0 metres to the City water main. The contractor is to supply all required materials for the tie-in.
5. All other engineering works and services not identified in the Schedule B – Fees and Charges will be carried out on a quoted fixed cost basis.
6. Installation of utility per metre length or portion thereof greater than 8 metres.
7. Daily use charge will be used between the period of November 1 and March 15. A weekly use charge is not permissible during this period.
8. Standard Business Hours are Monday – Friday, 07:00 – 15:30 (excluding any statutory holiday). Any requirement to install and/or remove a hydrant backflow preventer outside of these hours will require the payment of the Hydrant Use Outside Business Hours (daily) or Hydrant Use Outside Business Hours (weekly) charge, as appropriate.
9. Any change to a requirement to install and/or remove a hydrant backflow preventer from Business Hours to Outside Business Hours will result in a Hydrant Use Change Fee for each and every change.
10. A resident or developer may request a Re-use of an existing storm and/or sanitary connection but Re- use (or the installation of an Inspection Chamber) is subject to an inspection by the City to determine its/their suitability. If the City, in its sole discretion, determines that the existing connection(s) is/are not suitable for Re-use, fee(s) will be fully utilized for a cap-off of the service(s) and the resident/developer will be required to request a NEW connection(s) with the applicable fee(s) payable.
11. The fees are charged based on a standard installation or disconnection. Should any installation or disconnection service require additional work or requirements, the City will estimate the cost of the additional work or requirements and the resident/developer will be required to agree to and pay for these additional costs prior to any work commencing.
12. The requirement or request to install an H2O rated box on any service will incur an additional charge of \$50 per box.
13. A resident or developer may request the installation of an Inspection Chamber onto an existing service, subject to the City's confirmation that the existing service is suitable.
14. Installation of a water meter setter and box onto an existing service can be requested subject to the City's approval (services will need to be less than 25 years old). Should the City determine a water service is not suitable for a water meter setter and box to be installed on an existing service, the resident/developer will need to apply for a Water Cap-off (Disconnection) of the existing service and a new Water Service Connection and pay both the associated fees.
15. The City will, in its sole discretion, determine the need for 50mm water services as part of development applications, if the developer/home-owner has not requested one.
16. The Water Connection (50mm) fee covers installation costs to the Property Line. Any work required to sub-divide the 50mm water service at or within the Property Line is a separate fee, as determined by Development Services upon application.
