Section 4: MUNICIPAL ACTIONS AND PARTNERSHIPS TO ENABLE MORE HOUSING SUPPLY

A) Describe applicable actions taken in the last 12 months to achieve housing targets, in line with the Performance Indicators in the HTO. Each entry should include a description of how the action aligns with achieving the housing target, the date of completion, and links to any publicly available information. For example:

- Streamlined development approvals policies, processes or systems.
- Updated land use planning documents (e.g., Official Community Plan, zoning bylaws).
- Updated Housing Needs Report.
- Innovative approaches and/or pilot projects.
- Partnerships (e.g., BC Housing, CMHC, or non-profit housing organizations except First Nations – see Section 4 B).
- Other housing supply related actions.

1. **Complete Communities Report (completed January 6, 2025):** This is a geospatial assessment focusing on select areas of the City that have been identified for housing growth – the assessment and associated action plan will now be used to inform decisions around land use changes, policies and infrastructure to support additional housing and population growth.
2. **OCP Update Launch (scope and timing approved by Committee November 19, 2024):** The approved scope and timing of the OCP update includes work to refine and strengthen the existing framework, and address gaps, challenges and opportunities to meet the current and future needs of the community. This includes assessing land use designations to ensure opportunities for greater residential densities, and detailed neighbourhood planning processes. Updates to development permit design guidelines are also proposed in order to

- create a more user-friendly, streamlined development permit process. <https://pub-portcoquitlam.escribemeetings.com/filestream.ashx?DocumentId=11795>
3. **Housing Accelerator Fund application (application approved by Committee Sept 10, 2024):** The City applied for incentive-based funding from CMHC with the objective to accelerate the supply of housing. In order to support the application, an action plan was developed with 7 incentives to support the increase of housing supply, including reductions in parking, pre-approved designs, and rezoning areas with potential for greater residential densities. These incentives will also support the City meeting the HTO targets over the next 3 years. <https://www.portcoquitlam.ca/business-development/housing/housing-target-order>
 4. **Supporting non-profit housing providers (ongoing):** The City is supporting BC Housing, Metro Vancouver Housing Authority and several non-profits housing providers on the provision of multi-family non-market rental projects, including two developments which are under construction and will be completed in 2025 providing 363 units of secured non-market housing, and two applications (74 units) which are being expedited through the application review process.
 5. **2024 Housing Needs Report (endorsed by Committee December 17, 2024):** The City approved an updated Housing Needs Report that identifies current and future housing needs for our community. The findings of this report will be used to formulate policy, direction and land use amendments in the updated OCP and other planning documents. <https://www.portcoquitlam.ca/business-development/housing/housing-needs-report>
 6. **Digital Building Permit Applications (implemented January 16, 2025):** The ePlan program is intended to reduce permit timelines, create greater staff efficiency, and improve transparency throughout the permitting process. The online portal feature will be particularly helpful in expediting permit reviews.
 7. **Bill 44 – Small Scale Multi-Unit Housing (Bylaws adopted June 25, 2024):** The City amended its policies and bylaws with the intent to improve efficiencies through the development process and increase the supply of housing. These amendments include allowing up to four units as-of-right on single residential and duplex lots; an increased size of Accessory Dwelling Units, permitting up to 6-units for properties within 400 meters of a prescribed bus stop, and reduced and eliminated parking requirements within areas near transit, downtown core, and residential infill areas. As part of these changes, the City identified additional actions to support the creation of SSMUH which will be considered as part of the OCP update. <https://www.portcoquitlam.ca/business-development/housing/new-provincial-housing-legislation>
 8. **Bill 47 - Transit Oriented Area (Bylaws adopted June 25, 2024):** The City made amendments to establish Transit-Oriented Areas, reflecting the prescribed minimum heights and densities and removing residential parking requirements for developments located within a prescribed TOA. As part of this discussion, the City identified the intent to consider expanding the boundaries of TOAs as part of the OCP update to allow for additional residential densities in areas adjacent to

frequent transit stations and stops. <https://www.portcoquitlam.ca/business-development/housing/new-provincial-housing-legislation>

- 9. Expedited Development Review Processes (Bylaw adopted June 25, 2024).** The City streamlined the development approval process by delegating development permits for smaller developments and minor variances to the Director of Development Services.

<https://www.portcoquitlam.ca/sites/default/files/2024-10/3876%20-%20Delegation%20of%20Authority%20Bylaw.pdf>

- 10. Rezoning Apartment Designation (Bylaw adopted June 25, 2024).** The City “pre-zoned” areas for multi-family residential to create greater certainty, preserve the form and character of housing, and remove the need for rezoning applications.

B) Please provide any information about First Nation partnerships and/or agreements including planning, servicing and infrastructure that support delivery of housing on First Nation land including delivered and/or projected housing units.

The City of Port Coquitlam will continue to engage with the $k^w\text{ik}^w\text{ə}\lambda\text{əm}$ (Kwikwetlem) First Nation to foster stronger partnerships that will benefit the community as a whole.

Section 5: APPROVED HOUSING DEVELOPMENT APPLICATIONS

Report the number of approved applications issued by type since the effective date of the HTO. Each project should only be recorded once for the **most current** application type. Provide the estimated number of net new housing units to be delivered for each application category.

NOTE: units issued occupancy permits should be recorded in Section 2.

B) Provide a description of each application (e.g., rezoning, development permit, building permit) and brief summary of why each project was withdrawn or not approved.

Both applications were in-stream when the new housing legislation under Bill 44 was mandated by the Province. Both applicants withdrew their applications in order to re-apply with a new proposal that would comply with Bill 44 and the amendments the City of Port Coquitlam had made to its bylaws.

Section 7: OTHER INFORMATION

Provide any other information not presented above that may be relevant to the municipality's effort and progress toward achieving the housing target.

In addition to the approved development and building permit applications noted since the Housing Target Order date (August 1 2024) outlined in Section 5, Port Coquitlam has also approved applications issued prior to the Order date in 2024, which comprise an estimated:
