

Dear Jennifer Little,

Following up on our initial conversation in October, I would like to explore the opportunity of increasing the operating hours for Provincial Spirits and our fellow breweries. The support we have received from the City has been fantastic and I can speak for us all when I say we are proud to have our respective establishments located in Port Coquitlam.

We have experienced tremendous support over the past year from the community. Their continued patronage and positive feedback have been incredible, exceeding all of our expectations. Many of our fellow neighbours have welcomed us into the community and are some of our biggest supporters. Public safety is always a top priority. I am proud to say that there has been no issues or complaints received from our establishments. We hope to build on what was a successful 2019 as we lead into the new year.

In light of this, it is our collective request to seek a 2-hour increase of our current operating hours. The purpose of the extension wouldn't be to increase hours on all days. Rather, it would be to have the flexibility of increasing hours when situations deem it necessary and beneficial (such as group bookings or special events).

If there is any additional information you require, please do not hesitate to reach out to myself or anyone below.

Thank you for your support and consideration,

Chris Skelly, Provincial Spirits

Twin Sails Brewing
2821 Murray Street, Port Moody
Contact: Clay Allmin

The past 4.5 years, Twin Sails has been a prominent brewery in Port Moody. The bylaws have allowed them to be open until 12am, however, they made the decision to close at 11pm (similar to our plan). When speaking with Clay Allmin (Owner), he found that there is a gradual exit of patrons starting at 10:15pm and by 10:45pm the vast majority of customers have left on their own accord, knowing that the Tasting Room is closed at 11pm. In the 4.5 years of being open, Twin Sails has not had 1 police-related incident. Their fellow neighbours speak highly of Twin Sails and have welcomed them into the community. Their tasting room capacity consists of 50 seats inside and 30 seats on their patio.

Foamers Folly
19221 122a Ave, Pitt Meadows
Contact: Samantha Luniw

Foamers Folly has been Pitt Meadows' first and only brewery since opening up 4 years ago. They were initially allocated 60 seats which has since grown to 100. As years passed and seating capacity increased, Foamers has had no police incidents and have a very positive relationship with both the commercial and residential neighbours that surround them. They are currently licensed to stay open until 1am on Friday and Saturday and 11pm on all other days. They close the tasting room at 1230am as they found no financial benefit between 1230am-1am. They find that between 9pm-11pm draws a terrific crowd that begins to filter out slowly from 11:30pm-12:30am
